AWS Lambda

# AWS Step Functions flow

AWS Step Functions

# Amazon Textract

Amazon Textract

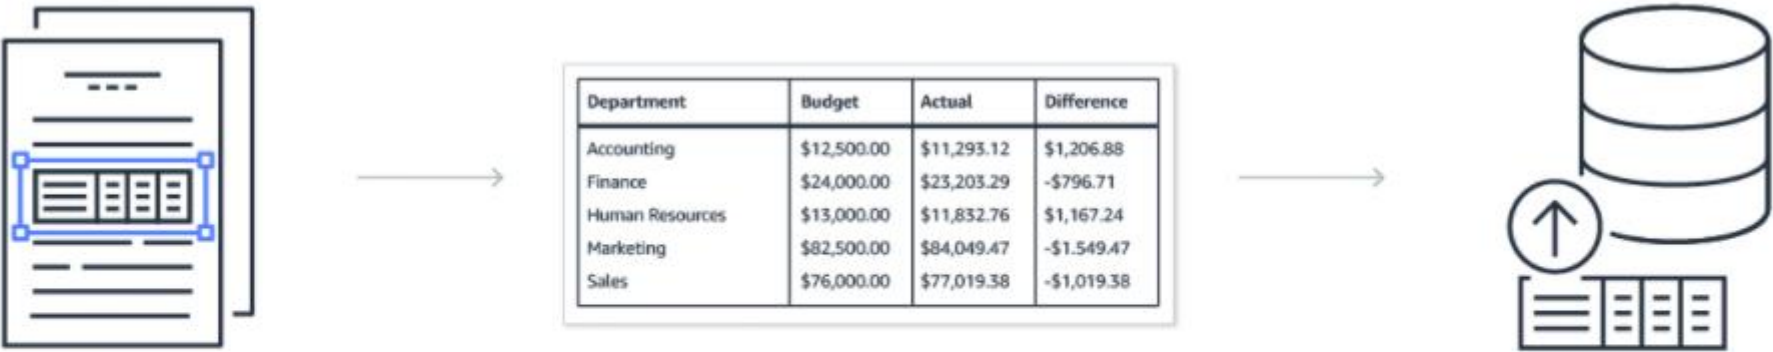

Tax, medical, banking, and other form documents

Textract recognizes many forms, such as W2, 1099-MISC, 1040, patient registration, and more

Automatically process documents without data entry or writing extraction rules

Automatically extract key-value pairs and retain document context without manual intervention

When extracting text from documents and forms, Textract automatically detects and extracts structured data

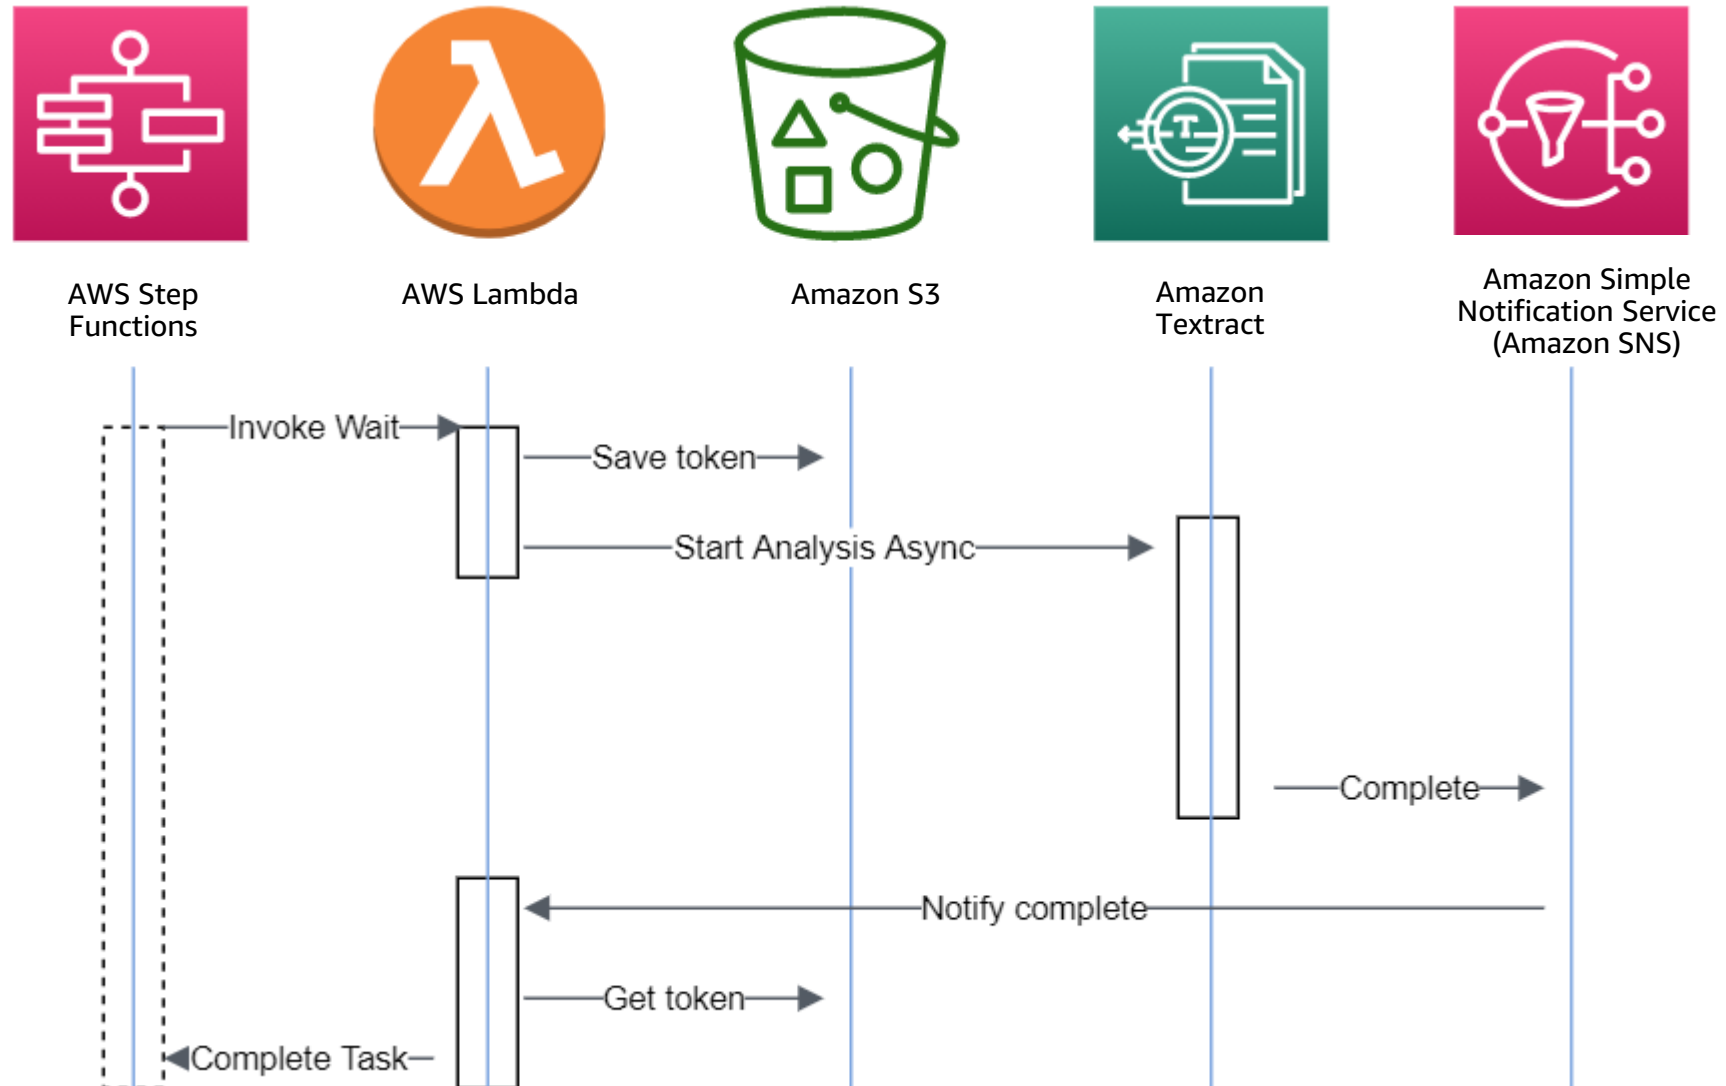

Textract preserves the tabular structure of extracted data, so that text remains grouped within each cell

With the tabular format of the data intact, easily upload extracted data into a database

# AWS Machine Learning (ML) Training and Certification

Learn like an Amazonian, based on curriculum we've used to train our own developers and data scientists

## **AWS is how you build machine learning skills**

Courses built on the curriculum leveraged by Amazon's own teams. Learn from the experts at AWS.

## **Flexibility to Learn Your Way**

Learn online with 65+ on-demand digital courses or live with virtual instructor-led training, plus hands-on labs and opportunities for practical application.

## **Validate Your Expertise**

Demonstrate expertise in building, training, tuning, and deploying machine learning models with an industry-recognized credential.

[aws.training/machinelearning](https://aws.training/machinelearning)

# Thank You for Attending AWS Innovate

We hope you found it interesting! A kind reminder to **complete the survey**.  
Let us know what you thought of today's event and how we can improve the event experience for you in the future.
